Resolution  
on  
Conversion of WIC and Other Training for  
Local Public Health Departments to Web-based Formats

WHEREAS, local public health departments in Michigan continue to incur unnecessary costs in training staff due to the State of Michigan not converting their training to web-based formats; and

WHEREAS, from a big picture perspective, taxpayers, local health departments and ultimately state departments would save substantial dollars if such training was converted to web-based formats; and

WHEREAS, the University of Michigan School of Public Health has already successfully offered web-based training in public health; and

WHEREAS, other vendors other than the University of Michigan are available in Michigan to assist in the creation of these web-based trainings;

BE IT THEREFORE RESOLVED, the MALPH Board of Directors directs a letter be sent to the Director of the Michigan Department of Community Health and the Director of the Public Health Division requesting that the Michigan Department of Community Health immediately begin conversion of their training, especially their required training for staff, to web-based formats.

Adopted by the Michigan Association for Local Public Health Board of Directors, May 9, 2005.
