

Tristian Bounds, P.E. - Keynote Speaker
From Pits to Potable: A look at the Evolution of Onsite

Civilization has seen major advancements in the relatively recent past in the ways we collect, treat, and operate wastewater systems. We continue to recognize the importance of utilizing all our natural resources to their fullest and are even changing the words we use when discussing these natural resources. With an understanding of our past and a clear vision of the future, we will continue to make advancements toward smarter technologies, better methods, and more responsible management of our water resources. This presentation will provide a glimpse into the past and vision into the future of the onsite wastewater world. Tristian Bounds, P.E., is the Lead Research and Development Engineer at Orenco Systems, Inc., a wastewater equipment manufacturing firm based in Sutherlin, Oregon. In this role, he develops products that provide sustainable wastewater treatment and reuse solutions for a growing world. Innovative engineering has been a passion of Tristian's for 20 years.

Kelly Galloway, P.E. - Keynote Speaker
SMART SEPTICS – How AI, advanced sensors and the "Internet of Things" will change the decentralized wastewater industry

We now live in a world where consumers are demanding protection from adverse outcomes and are managing more aspects of their lives and household infrastructure from their smartphones. Advanced septic monitoring and management is one of the last remaining frontiers of the smart home. It will enable a transition from the status quo of "out of sight and out of mind", to onsite systems which are capable of providing ongoing feedback on their performance. Kelly Galloway, P.E. is a civil engineer with 28 years experience, 23 years with her own firm, Engineering Technologies Canada Ltd. (ETC). ETC is based in Prince Edward Island, but provides specialized consulting engineering services to clients throughout Atlantic Canada and beyond. Kelly has focused her career on small community, commercial, and residential sewage and septic systems, including soil evaluations, and planning studies. She collaborates regularly with top executives at major industry OEMs and other leaders from government, academia, and industry organizations.

Mobile Truck Simulator

Back by popular demand, the Michigan Center for Truck Safety will be onsite with the Mobile Truck Simulator again this year. Participants at the conference will have the opportunity to get behind the wheel of the "Big Rig" (in the simulator) to learn more about their driving skills. The Michigan Center for Truck Safety is a non-profit organization dedicated to improving highway safety on Michigan's roadways, through comprehensive safety educational programs for Michigan's trucking industry.

**** NEW WORKSHOP THIS YEAR ****
Onsite WW Treatment System Design
 Tuesday 8:30am - 3:30pm

2019 Onsite WW Conference will offer an all-day workshop on treatment system design. This workshop will cover many of the important factors that are important for those involved in the design, permitting and construction of onsite systems. It will be especially helpful for regulators, designers, contractors and even system maintenance providers. Topics on the agenda include: water movement through soils, septic tank construction, basic pumps and controls, the use of flow equalization, treatment of high strength WW, nutrient removal and disinfection, and more. For more information, go to www.meha.net, www.mowra.org, or www.msta.biz. **COST:** You must pay the cost of the conference plus an additional \$25 to cover the cost of materials. Please bring your laptop. Certificates of Completion will be provided to those completing the workshop. **To register:** Check the appropriate box on the registration page of this flyer.

Hotel Information

Reserve your room(s) prior to 12-11-18.
 Kellogg Center 800-875-5090 or 517-432-4000.

**Tuesday January 8, 2019
CONCURRENT SESSIONS
8:30AM TO 3:30PM**

TRACK 1: LINCOLN ROOM

- Onsite WW and Septage Program Overview
- Local Health Department Resources for Training New Staff
- MI Criteria for Subsurface Sewage Disposal
- Onsite WW Subdivision & Condo Development Rule Review and Plan Review Exercise
- Local Health Department/DEQ Case Study

TRACK 2: AUDITORIUM

- Immunizations for Wastewater Professionals
- CDL Drug Testing and Recommended Training
- Proper Truck Inspections
- Pumper Truck Inspection from a Haulers Perspective
- Back to Basics for Sanitarians, Installers, Pumpers
- Regulations, Insurance, Business Plans for Haulers/Pumpers/Portable Businesses

TRACK 3: Room 104 A&B

Onsite Wastewater Treatment System Design
Workshop*

*Additional \$25 fee applies to pay for cost of materials.

OUTSIDE:

- Mobile Truck Simulator

VISTA ROOM:

- MDEQ One-On-One 30-minute segments, sign up sheet at registration desk

6.0 CSE hours approved by MDEQ for Tuesday.

**EXHIBITS OPEN 3:00PM TO 5:30PM
CASH GIVE-AWAYS—LIGHT BUFFET**

Wednesday January 9, 2019

GENERAL SESSIONS 8:30AM to 11:15AM

- From Pits to Portables: A Look at the Evolution of Onsite, *presented by Tristian Bounds, Orenco Systems*
- How AI, Advanced Sensors & the “Internet of things” will change the Decentralized WW Industry, *presented by Kelly Galloway, Engineering Technologies Canada Ltd.*

CONCURRENT SESSIONS 1:00PM to 3:30PM

TRACK 1: LINCOLN ROOM

- How to Set a Septic Tank—Proper Installation
- Site Preparation and Construction Panel Discussion

TRACK 2: AUDITORIUM

- Pumper Stories
- MDEQ Question & Answer Session

TRACK 3: Room 104 A&B

- New Tools for Monitoring Onsite System Performance
- Remote Telemetry Panels

OUTSIDE:

- Mobile Truck Simulator

ASSOCIATION MEETINGS 3:30PM to 5:00PM

- MOWRA— Lincoln Room
- MSTA—Auditorium—1.5 CSE Hours

6.0 CSE hours approved by MDEQ for Wednesday

EXHIBITS OPEN 8:00AM TO 3:00PM

**SOCIAL HOUR 5:30PM TO 6:30PM
MSTA BANQUET 6:30PM**

Thursday January 10, 2019

**ROUND TABLE DISCUSSIONS
8:15AM to 11:15AM**

1. Health Care Reform Update
2. Bidding Proposals for Septic System Installs
3. Immunizations for WW Professionals
4. Processing Liquid Waste in the City & Country
5. Selling your Septic Business
6. Land Application Septage Management Injection
7. Regulatory testing of Food Waste at your Land Application Site
8. Sustaining and Managing Growth
9. SepticSmart: Educate your Clients / Homeowners
10. New Tools for Monitoring Onsite System performance
11. Meth Awareness: Identifying the Hazards
12. Remote Monitoring and Mgmt of Onsite Systems

CONCURRENT SESSIONS 11:15AM to 3:00PM

TRACK 1: LINCOLN ROOM

- SepticSmart: Educate your Clients/Homeowners
- SepticSmart: Panel Discussion

TRACK 2:

- Land Application Septage Management/Injection
- Selling your Septic Business: Choosing the Right Path for You & Your Septic Business
- Statewide Sanitary Code

OUTSIDE:

- Mobile Truck Simulator

5.5 CSE hours approved by MDEQ for Thursday

**3:00PM - Prize drawing in Auditorium
MUST BE PRESENT TO WIN**
