

MICHIGAN'S PREMIER
PUBLIC HEALTH CONFERENCE

REGISTRATION BROCHURE

OCTOBER 16 - 17, 2019
YPSILANTI, MICHIGAN

PARTNERS IN PLANNING:

Grand Valley State University
Great Lakes Chapter Society for Public Health Education
Michigan Association for Local Public Health
Michigan Department of Agriculture and Rural Development
Michigan Department of Health and Human Services
Michigan Department of Environment, Great Lakes, and Energy
Michigan Public Health Association
Michigan Public Health Institute
Michigan State University
University of Michigan School of Public Health

CONFERENCE OBJECTIVES:

AT THE CONCLUSION OF THIS CONFERENCE, LEARNERS WILL BE ABLE TO:

1. Define "investment" in public health and how it influences public health innovation and transformation at the local, state, and national level.
2. Describe innovative approaches to engage communities in investing in public health transformation.
3. Explore legal and ethical principles of private-public partnerships that provide a foundation for public health investment and innovation.
4. Advocate with private and public partners for the investment necessary to transform public health practices
5. Lead interprofessional approaches to facilitate innovation and investment aimed at transforming local public health practice.

OVERARCHING CONFERENCE OUTCOME

Every learner will identify skills they have learned that will enable them to lead the transformation of public health practice by facilitating investment and innovation in local communities.

CHES/MCHES

SOPHE, including its chapters, is a designated provider of continuing education contact hours (CECH) in health education by the National Commission for Health Education Credentialing, Inc. Credits are pending.

REGISTRATION INFORMATION

CONFERENCE REGISTRATION

Includes Group Breakfast & Luncheons

Confirmations will be emailed to all registrants. Registration forms can be faxed or emailed in advance of payment to 517-485-6412 or jshaver@malph.org.

One Day	\$ 99.00
Full Conference	\$149.00
Late Fee after Sept. 27	\$ 20.00 - add on
Onsite Registration Fee	\$ 50.00 - add on

CONFERENCE LOCATION

Ann Arbor Marriott Ypsilanti at Eagle Crest
1275 S. Huron Street
Ypsilanti, MI 48917

HOTEL ACCOMMODATIONS

Ann Arbor Marriott Ypsilanti at Eagle Crest
734-487-2000
Group Code King Room: LPHLPHA
Group Code Double Room: LPHLPHD
Discounted Hotel Rates: \$120.00 & Up
Reservations must be made by September 27, 2019 to receive discounted rate.

****Note**** The Ann Arbor Marriott Ypsilanti at Eagle Crest is the only hotel associated with our conference. While other hotel resellers may offer rooms for your trip, they are not affiliated with MALPH or the Michigan Premier Public Health Conference. Please be aware the Ann Arbor Marriott Ypsilanti at Eagle Crest will NOT solicit you to make a reservation.

CONFERENCE CANCELLATIONS

Cancellations must be received in writing 48 hours prior to arrival. Fax to: 517-485-6412 or email to jshaver@malph.org. Cancellations are subject to a \$25.00 administrative fee.

EARLY CONFERENCE REGISTRATION BY SEPTEMBER 28

After September 27, 2019, add \$20
Onsite Registration, add \$50; Meals may not be included

TUESDAY, OCTOBER 15 / PRE CONFERENCE

1:00 - 4:00 P.M.

P-101

Embracing Quality in Public Health: Using Data to Drive Improvement

Continuing our Embracing Performance in Public Health series, this pre-session provided by MPHI and the Office of Performance Improvement and Management at MDHHS will provide participants with training in public health performance management. During this session, participants will dive into the components of a performance management system, with practice activities and engaging discussions along the way. Participants will leave with tools and tips they can use to successfully implement performance management within their own agencies.

Jessie Jones, Program Coordinator, Michigan Public Health Institute

Jennifer Schuette, Michigan Department of Health and Human Services

2:00 - 4:00 P.M.

P-102

Local Health Department Collaboration and Exploration of Shared Approach to Delivery of Services

Earlier in the year, the Michigan Department of Health and Human Services (MDHHS) announced the availability of funds to continue the exploration of service sharing agreements and/or collaboration in the operations (role and function) of Michigan's local health departments. Collaboration and/or a shared approach to delivery of services, also known as Cross Jurisdictional Sharing (CJS), are significant concepts in public health service delivery in America. CJS is recognized by NACCHO and supported by the Center for Sharing Public Health Services. The Center serves as a national resource on CJS, building the evidence, and disseminating tools, methods and models to assist local health departments and policy makers as they consider and adopt CJS approaches. Twelve local health departments received dollars to implement CJS projects. A panel of those health departments and MDHHS local health services staff will discuss their road map to include exploration, preparedness and planning, and finally implementation and improvement.

1:00 - 4:00 P.M.

P-103

Public Health Law 101 & Ethics

This 3-hour workshop will review the powers and responsibilities (authority) of Michigan's Local Health Departments to protect and improve the public's health. The training will provide attendees with an overview of Michigan's Public Health Code (Public Act 368 of 1978, as amended) and the legal context in which it operates. Presenters will also provide a framework for incorporating legal and ethical considerations into public health decision-making.

This workshop will be conducted by the Network for Public Health Law – Mid-States Region, located at the University of Michigan School of Public Health. The workshop is primarily intended for new health officers, medical directors, and other administrators and leaders in local health departments. All are welcome.

Denise Chrysler, JD, Director, Network for Public Health Law, Mid-States Region, University of Michigan School of Public Health

Colleen Healy Boufides, JD, Deputy Director, Network for Public Health Law, Mid-States Region, University of Michigan School of Public Health

11:00 A.M. - 5:00 P.M.

P-104

Netsmart User Group Meeting & Reception

Information to follow in onsite conference brochure.

SCHEDULE AT A GLANCE

WEDNESDAY, OCTOBER 16

Breakfast, Registration, Poster Presentations, Exhibitors & Networking	7:30 - 8:30 a.m.
Welcome	8:30 - 9:00 a.m.
Keynote Address	9:00 - 10:00 a.m.
Breakout Sessions	10:15 - 11:15 a.m.
Networking Break, Poster Presentations, & Exhibitors	11:15 - 11:45 p.m.
Lunch	11:45 - 12:15 p.m.
Awards	12:15 - 12:45 p.m.
Breakout Sessions	1:00 - 2:00 p.m.
Breakout Sessions	2:15 - 3:15 p.m.
Networking Break, Poster Presentations, & Exhibitors	3:15 - 3:45 p.m.
Keynote Address	3:45 - 4:45 p.m.
Wrap Up & Adjourn	4:45 - 5:00 p.m.

THURSDAY, OCTOBER 17

Exercise Activity	7:00 - 7:45 a.m.
Breakfast, Registration & Networking	7:45 - 8:45 a.m.
Keynote Address	8:45 - 9:45 a.m.
Breakout Sessions	10:00 - 11:00 a.m.
Breakout Sessions, Poster Presentations, & Exhibitors	11:15 - 11:30 p.m.
Lunch	11:30 - 12:15 p.m.
Breakout Sessions	12:30 - 1:30 p.m.
Networking Break	1:30 - 2:00 p.m.
Keynote Address	2:15 - 3:15 p.m.
Raffle (must be present to win)	3:15 - 3:30 p.m.

WEDNESDAY, OCTOBER 16

9:00 - 10:00 A.M.

KEYNOTE ADDRESS

Transforming Local Public Health- Successes in Leadership

In spite of the many challenges that local governmental public health has experienced over the years, the health of Michigan citizens, continues to show positive signs of improvement. Often, there are adverse health events that overshadow the innovation and successes that have been achieved by departments and local leaders across the state. The goal of this session is to highlight the achievements and successes of local health departments, acknowledge the important contributions of leaders across the state, and to highlight local and national trends in transforming the role of local public health in communities.

Phyllis D. Meadows, PhD, MSN, RN, Senior Fellow, Kresge Foundation

10:15 - 11:15 A.M.

SESSION 101

Laying the Groundwork for Per-and Polyfluoroalkyl Substances (PFAS) Exposure Assessments in Michigan

Per-and Polyfluoroalkyl Substances (PFAS) are a group of chemicals that have been found in groundwater across Michigan. The Michigan Department of Health and Human Services and the Kent County Health Department have invited selected households from Kent County, Michigan to participate in an exposure assessment. This involves measurement of PFAS in blood serum and household water supplies, as well as a questionnaire. This PFAS exposure assessment is a model for other contaminated sites in the state.

Rachel Long, MSPH, Epidemiologist, Michigan Department of Health and Human Services
Laura Abington, M.Ed., MPH, Epidemiologist, Michigan Department of Health and Human Services
Karla Black, PhD, MEP, PEM, REHS, Public Health Program Supervisor, Kent County Health Department

SESSION 102

Improving Birth Outcomes through Regional Perinatal Quality Collaboratives

The presenter will provide a comprehensive overview of Michigan's Regional Perinatal Quality Collaboratives (RPQCs) and how this innovative approach addresses adverse birth outcomes, inequities in these outcomes and achieves results through implementation of evidence-based interventions. The RPQCs are comprised of diverse, multi-sector regional partners working together to integrate community and clinical practices through a data-driven quality improvement approach.

Emily Goerge, MPH, MSN, RN, Perinatal Nurse Coordinator, Michigan Department of Health and Human Services

SESSION 103

Centering Equity and Engagement: The Evolution of Community Health Assessment and Planning in Washtenaw County

Washtenaw County Health Department (WCHD) together with a countywide partnership of local health system partners supported several equity-focused projects over the last two decades. Despite this work, health inequities in Washtenaw County persisted. WCHD recognized the need to shift to a new framework centered on health equity and community engagement. This presentation describes WCHD's journey towards a more equity-focused, community-engaged community health assessment and improvement planning process and strategies used to redesign the countywide partnership.

Dayna Benoit, MPH, CHES, Community Health Analyst, Washtenaw County Health Department
Adam Paberzs, MPH, Health Equity Analyst, Washtenaw County Health Department

WEDNESDAY, OCTOBER 16

SESSION 104

Assembling a Regional Public Health Ethics Committee: Practices to Address Dilemmas that Cross Jurisdictions

To promote cross-jurisdictional sharing the Barry-Eaton District Health Department joined with three additional contiguous health departments (Ingham, Mid-Michigan, Livingston) to form the Capital Region Ethics Committee. This novel committee developed and assembled materials for advanced-level local public health ethics education and implementation. The group also conducted a regional ethical analysis about Hepatitis A and food workers. This presentation shares this process and introduces materials and methods used in creating and facilitating the committee.

Sarah Surna, MSSA, MPH, Community Health Promotion Specialist, Barry-Eaton District Health Department

Anne K. Barna, MA, Planning, Promotion, and Evaluation Manager, Barry-Eaton District Health Department

Adrienne DeFord, JD, Environmental Justice Coordinator, Ingham County Health Department

SESSION 105

Investing in our Workforce: How 2 Local Health Departments are Using Workforce Development Plans for Public Health Transformation

Conducting workforce development assessments and planning for the first time can be a large and overwhelming undertaking, but it can also be an opportunity to invest in staff and advance agency priorities. Two local health departments, Oakland County Health Division and Macomb County Health Department recently completed and implemented their workforce development plans. They will provide details on how they assessed staff; developed, launched, and implemented plans; communicate with staff, and track outcomes and effectiveness.

Carrie Hribar, MA, Planning and Evaluation Specialist, Oakland County Health Division

Whitney Litzner, MPH, Planning and Quality Assurance Manager, Macomb County Health Department

Sara Stoddard, MS, Chief of Administrative Services, Oakland County Health Division

Maria Swiatkowski, BS, Community Health Planner, Macomb County Health Department

1:00 - 2:00 P.M.

SESSION 201

Investing in Michigan's Children: The economic benefits of reducing lead exposure and the cost of inaction

This panel will discuss some of the most innovative investments the state and communities across Michigan are making to prevent lead exposure. The panel will couple that discussion with an updated analysis of the cost of lead exposure in Michigan and return on investment for lead hazard remediation. This 2019 cost-benefit analysis will come from a new report on the ongoing annual financial cost of lead exposure in Michigan.

Rebecca Meuninck, PhD., Deputy Director, Ecology Center

Tina Reynolds, J.D., Health Policy Director, Michigan Environmental Council

WEDNESDAY, OCTOBER 16

SESSION 202

PrEPing the Peninsulas

Chippewa County Health Department staff will outline a real-world example of readying their site to offer PrEP, including establishment of protocols and workflows, barriers, and practical strategies for overcoming barriers. Participants of this session will also gain essential knowledge of PrEP clinical guidelines, current PrEP utilization rates, and its role in decreasing HIV transmission in Michigan.

Mary Nagy, BSN, MPH, Public Health Detailer, Michigan Department of Health and Human Services

Mary D. Miller, MSN, RN, Public Health Nurse, Chippewa County Health Department

Charity Zimmerman, BSN, RNC, Public Health Supervisor, Chippewa County Health Department

SESSION 203

The Road to Becoming a Trauma-Informed & Resiliency-Focused Local Health Department

The Berrien County Health Department is becoming the local "go-to" expert for assisting partner organizations pivoting to do trauma-informed and resiliency-focused work including addressing racial inequities. As BCHD is not alone in transforming the approach to primary prevention of health issues and creating community systems that adequately address upstream root causes of health inequities, we will share our own lessons learned, best practices identified, and road map for leading transformation in local public health efforts.

Nicki Britten, MPH, Health Officer, Berrien County Health Department

Courtney Davis, MPH, Deputy Health Officer, Berrien County Health Department

SESSION 204

Journey to Health in All Policies: Lessons Learned by the Kent County Health Department

Representatives from the Kent County Health Department (KCHD), will share lessons learned on their journey toward Health in All Policies (HiAP) within the context of local public health. Presenters will discuss how KCHD has been institutionalizing health equity, building capacity, developing tools, engaging and implementing HiAP. Emphasis will be placed on the Triple Aim of Health Equity, local education and awareness efforts.

Teresa Branson, MHA, Deputy Administrative Health Officer, Kent County Health Department

Cassie Kobler, MPA, Public Health Program Supervisor, Kent County Health Department

SESSION 205

MiTracking Portal: An Enhanced Tool for Data Driven Decision Making

The MiTracking portal has been rapidly expanding to include new data, collaborations and uses. With a rejuvenated focus on putting data to action and informing the public, especially in regards to Climate Change and the Opioid Epidemic. MDHHS will provide a panel of experts to discuss how local public health can use the portal for their interests, such as determining vulnerable populations or improving needs assessments.

Jill Maras, MPH, Program Manager/Epidemiologist, Michigan Department of Health and Human Services

Gill Capper, MPH, Epidemiologist, Michigan Department of Health and Human Services

Rita Seith, MPH, Opioid Surveillance Coordinator, Michigan Public Health Institute

WEDNESDAY, OCTOBER 16

2:15 - 3:15 P.M.

SESSION 301

The Lead Primary Prevention Pilot: An innovative approach

The Lead Primary Prevention Pilot Project is a proactive effort to reduce the disparity of childhood lead poisoning in Detroit by deploying Community Health Workers to the five most lead poisoned zip codes to deliver health education and prevention services. Community Health Workers canvass neighborhoods, offering lead check swabs for every household, visual assessments, lead capillary testing for children and pregnant women, lead safe cleaning kits, and a referral form for an abatement program.

Alanna Woolley, MPA, Lead Primary Prevention Manager, Detroit Health Department

Aimee Surma, MS, RN, Lead Program Manager, Detroit Health Department

SESSION 302

Emmet County School Health: A Community Partnership

In 2017 a small group of parents in Emmet County voiced concerns of the lack of school health resources. This prompted schools, the health department, and hospital system to create a Workgroup to evaluate potential student needs within three rural school districts. From the results of the assessment, the health department has been able to write for numerous grants to address the health needs of students and introduce resources to the schools in this rural community.

Kathleen Jakinovich, MPH, Community Health Coordinator, Health Department of Northwest Michigan

Carrie Field, MPH, Community Health Coordinator, Health Department of Northwest Michigan

Natalie Kasiborski, PhD., LMSW, MPH, Director of Community Health Services, Health Department of Northwest Michigan

SESSION 303

Medicaid Matters: Understanding the Healthy Michigan Plan, Medicaid Work Requirements, and How We Can Keep Our Community Insured

Medicaid expansion has had clear health and economic benefits across the nation. In January 2020, Medicaid work requirements are scheduled to go into effect in Michigan. Learn what to expect, why this is a problem for local health departments, and how we can work to mitigate these effects.

Ruth Kraut, MPH, MA, Program Administrator, Washtenaw County Health Department

Krista Nordberg, JD, Director of Enrollment and Advocacy Service, Washtenaw County Health Department

SESSION 304

Lessons from the Implementation of Tobacco 21: Models of State and Local Innovation, Community Engagement, and Decriminalization of Youth Access to Tobacco

Tobacco 21 policies have spread rapidly across the nation in recent years in an effort to reduce youth access to tobacco. This presentation describes the innovative implementation of these laws in Ohio. In the most successful cities, public health departments are involved with the civil enforcement of the policy and collaboration with retailers is essential. The findings presented have practice implications in Michigan, especially as Tobacco 21 is being considered in the state legislature.

Karalyn Kiessling, MPH, Research Assistant, University of Michigan

WEDNESDAY, OCTOBER 16

SESSION 305

Federal Funding at the State-Level: The Effects of SAMHSA and CDC Funding on the Opioid Crisis in Michigan and the Crucial Corrective Role of Data

Opioid teams from the Injury and Violence Prevention (IVP) Section and the Office of Recovery Oriented Systems of Care (OROSC) at the Michigan DHHS present experiences with funders like CDC and SAMHSA and the influence these funders on the implementation of interventions. These opioid teams also discuss the importance of monitoring vis-à-vis funders and contractors, and suggest methods to improve the process of gathering, analyzing, and responding to new data.

David Awadalla, B.S.HP, MSW, State Opioid Consultant, Michigan Department of Health and Human Services

Desiree McLain, MPH, MSI, Data Consultant, Michigan Public Health Institute

3:45 - 4:45 P.M.

KEYNOTE ADDRESS

Preparing for and Responding to Public Health and Medical Emergencies/Disasters

With examples of actual past events spanning nearly 40 years, the presenter will discuss the public health and medical preparedness and response activities necessary because of both intentional and unintentional incidents creating the emergency or disaster. From Assessment to Rumor Control, 21 other public health and medical issues will be discussed using real experiences and pictures from the field.

Ronald C. Burger, BS, Retired CDC

THURSDAY, OCTOBER 17

7:00 - 7:45 A.M.

Exercise Activity

Back by popular demand! Cari Draft is one of the lakeshore's most active and community-involved personal fitness trainers. While she is founder and owner of EcoTrek Fitness (unique outdoor group workouts with several series all over Michigan) she also trains numerous fitness clients, ranging from marathon runners to men and women of all ages interested in losing weight or just feeling more fit.

8:45 - 9:45 A.M.

KEYNOTE ADDRESS

Practical Application of Legal Epidemiology in Public Health Practice

This presentation introduces key concepts in the emerging field of legal epidemiology, including the transdisciplinary model of public health law, the 5 Essential Public Health Law Services, and policy surveillance. It discusses how the methods and tools of legal epidemiology can be applied in day to day practice to improve health outcomes and strengthen health agencies.

Scott Burriss, JD, Professor of Law and Public Health, Temple University

THURSDAY, OCTOBER 17

10:00 - 11:00 A.M.

SESSION 401

An Interdisciplinary Approach to Identifying and Supporting Trafficked Youth in Health Care Settings

Human trafficking and commercial sexual exploitation of minors are significant public health concerns. Healthcare professionals are missing opportunities to identify and support victims of trafficking, who report not disclosing their status due to many factors. This session will include an innovative, interactive, ready-to-use mini-training designed for staff and providers using a whole-health center approach, recognizing that everyone can play a part in identifying and supporting victims of trafficking.

Jenni Lane, MA, Senior Program Manager, Adolescent Health Initiative

SESSION 402

FPHLPing the Script on Mentoring: Mentorship as a Public Health Investment

The Future Public Health Leaders Program (FPHLP) at the University of Michigan School of Public Health is a 10-week Centers for Disease Control and Prevention (CDC) funded public health pipeline program. FPHLP seeks to increase the diversity of the public health workforce, however, the program also benefits the practitioners mentoring students. The role of mentorship as a form of investment for strengthening the public health workforce will be explored during the presentation.

Dana L. Thomas, MPH, Director Public Health Practice, University of Michigan School of Public Health

Cleopatra Howard Caldwell, PhD, Professor and Department Chair, University of Michigan School of Public Health

Hannah Hoelscher, MA, Project Coordinator, University of Michigan School of Public Health

SESSION 403

The Coalescence of Behavioral Health and Environmental Health Response

This interactive session will focus on the intersection of environmental health and behavioral health in addressing emergent public needs following environmental contamination. Discussions will focus on the role of behavioral health practitioners and Community Mental Health in supporting Michigan communities, affected by environmental contaminants. Local health professionals will be encouraged to provide insight to help us better support their communities. In addition, we'll provide information about upcoming training opportunities for behavioral health practitioners.

Mitch Lindstrom, Toxicology & Response Liaison, Michigan Public Health Institute

Jody R. Lewis, MA, Behavioral Health Liaison, Michigan Department of Health and Human Services

Susan Manente, MA, Michigan Department of Health and Human Services

SESSION 404

TRAILS needs assessment: Exploring school mental health within Detroit Public Schools Community District

The University of Michigan's TRAILS Program and Youth Policy Lab partnered with Detroit Public Schools Community District (DPSCD) to conduct a needs assessment to determine school mental health strengths and gaps throughout DPSCD. The needs assessment was the first step in a plan to implement school mental health programming for all district schools. Data collection methods and results will be presented.

Jennifer Vichich, MPH, TRAILS Project Manager, University of Michigan

Maureen Smith, MA, TRAILS Project Coordinator, University of Michigan

THURSDAY, OCTOBER 17

SESSION 405

Transforming Health Centers into Adolescent-Centered Medical Homes

Adolescents are more likely to seek services at a health center that feels like a medical home, where their needs are recognized and respected through interactions with staff, providers, policies, and the physical environment. The Adolescent Health Initiative will present strategies that health centers can implement to become more youth-friendly and better meet the needs of adolescent patients. Participants will have time to use these strategies to make plans to improve adolescent health care at their health center.

Ellen Wagner, MPH, MS, Adolescent Health Initiative Assistant Director, Michigan Medicine

12:30 - 1:30 P.M.

SESSION 501

Building an Ethics Infrastructure for Public Health Decision-Making

This session will highlight the Principles of the Ethical Practice of Public Health and other established frameworks as a guide to building an ethics infrastructure in a local health department (LHD). Washtenaw County Health Department (WCHD) process for developing its ethics committee will be dissected and examined as a roadmap for other LHD seeking to establish a public health ethics

Cindra James, MPA, Public Health Preparedness Administrator, Washtenaw County Health Department

SESSION 502

Get, Set, Ready? A variation analysis of public health leadership workforce.

Consensus building, one of the recommendations to achieve Public Health 3.0, works best in the context of a leadership team with diverse competence, that is open to change and perseveres in reaching long-term goals. The research goal of this study was to identify the diversity of competence and characterize openness to change and grit in the existing nature of leadership job categories in local health departments. Study findings suggest distinct underlying differences by job category.

Emmanuel Jadhav, DrPH, MHM, MSc, Assistant Professor, Ferris State University

SESSION 503

Community-Driven Health Impact Assessments: An Example from Detroit's Gordie Howe International Bridge Project

Health Impact Assessments (HIAs) center health equity in a decision-making process. Community organizers, supported by public health and academic institutions, can play a central role in developing scientifically-grounded and community-informed recommendations to reduce adverse impacts and promote community benefits. We use our experience implementing a recent HIA to host a broader conversation about community's role in achieving and implementing HIAs, and the role of government and academic bodies as supportive partners in the work.

Lauren Fink, MPH, Community Epidemiology Manager, Detroit Health Department

Simone Sagovac, BA, Project Director, Southwest Detroit Community Benefits Coalition

Natalie Sampson, PhD, MPH, Assistant Professor, University of Michigan-Dearborn

THURSDAY, OCTOBER 17

SESSION 504

Working with Closed Point of Dispensing (POD) Partners

Over the past year, Wayne County has grown its Closed POD program to serve over 100,000 citizens. Leaders from their Emergency Preparedness Unit will share how they rebuilt their Closed POD program, discuss lessons learned, and then provide opportunities for group discussion of struggles and best practices within participants' jurisdictions.

Timothy Mautz, BS, MFR, PEM, Logistics Chief, Wayne County Department of Health, Veterans, & Community Wellness

SESSION 505

Pediatric Tuberculosis (TB) Contact Investigation in Elementary School Setting: A Case Study

Staff from WCDHVCW-TB and Communicable Disease program will present a case study of a complex pediatric tuberculosis contact investigation that occurred from October 2018-April 2019 in a public elementary school setting within Wayne County, Michigan.

Nnenna Wachuku, MSN, RN, Communicable Disease/TB Program Supervisor, Wayne County Department of Health, Veterans & Community Wellness

Lukas L. Ayers, BS, MPH, Epidemiologist, Wayne County Department of Health, Veterans & Community Wellness

2:15 - 3:15 P.M.

KEYNOTE

Change Leadership for PH 3.0

This session will give leaders an overview of the transition public health has made from 1.0 to 3.0 and provide practical tips, tools and strategies leaders can use to enable change in their organizations and communities.

Vaughn Mamlin Upshaw, DrPH, EdD, MPH, Professor of Practice, Public Health Leadership, University of North Carolina at Chapel Hill, Gillings School of Global Public Health
