Payment Identification

- From 'Facility Settlement' menu, select 'Payments'
- Filter by 'Payment ID' and put in fiscal period surrounded by wildcard %
- This will grab all payments associated with a specific cost report and/or settlement.

Total Services Rate Determination Worksheet

- Total Services: These group definitions stated below are for the total facility:
 - **Group 1:** Total visits are defined as a face to face billable service which relates to procedures listed under this group in the LPHD database. All services performed during the face to face visit will be excluded from any other group. Example: Blood draw during a communicable disease program office visit will not be included in Group 5 services.
 - **Group 2:** Any services administered for vision and/or hearing screens
 - **Group 3:** Vaccines may be counted either by actual vaccines used or the associated administration fees.
 - **Group 4:** Total visit are defined as a face to face billable service which relates to procedures listed in the LPHD database and are billed under the Family Planning Clinic enrolled NPI. All services performed during the face to face visit will be excluded from any other group. Example: Blood draw during a communicable disease program office visit will not be included in Group 5 services.
 - **Group 5:** Blood Lead Services that are billable units for the procedures listed under this group in the LPHD database

Total Services Allocation to Medicaid

- The cost report is designed and intended to find the Medicaid portion of allowable costs to be reimbursed under full cost.
- The cost report is intended to capture all allowable costs reimbursable under the cost based reimbursement model – captured in the Expense Worksheet.
- To allocate to Medicaid, a rate is determined by dividing all allowable costs by the total services rendered, and then applying the rate to the Medicaid services billed and paid (FFS or MCO).
- Failure to capture total allowable costs, or appropriately capture total services rendered, is considered a failure to properly complete the cost report.

Recap: Total Services Recurring Questions and Issues

- Validation Error: Program services can not exceed Total Services Reported.
 - Simply put, Medicaid program services is a subset of total services. It is not legitimately possible for Medicaid billed services to ever exceed total services and this error message indicates either fraudulent billing Medicaid for services not rendered or total services are not appropriately reported.
- Expenses and Services reflect only Medicaid.
 - It is not the stated purpose of LPHDs to serve only Medicaid population. Reporting only Medicaid would require a full audit of all services rendered to ensure appropriate allocation is followed. As explained previously, the cost report includes the allocation method approved by CMS so failure to utilize cost report properly must also lead to cost report being verified in other means.
- Provider only tracks billed services, and since third party is not billed, the only services tracked are Medicaid.
 - It is the responsibility of the LPHD to track total services appropriately. It would also logically follow that failure to track services rendered is a material weakness and potential compliance violation.

Archived Documents

Using your FS LPHD profile to access CHAMPS and Facility Settlement through External Links, you can access 'FS Archived Documents' under the 'Facility Menu'. Select 'HCRD Documents' from 'Document Class' filter.

The screenshot displays the CHAMPS web application interface. At the top, the navigation bar includes 'My Inbox', 'Facility', 'Reference Data', and 'Facility Settlement'. The 'Facility' menu is expanded, showing options: 'MANAGE FACILITY', 'Manage Facility Information', 'FS ARCHIVED DOCUMENTS', and 'FS Archived Documents'. A mouse cursor is hovering over 'FS Archived Documents'. Below the menu, the 'Archive' section is visible, featuring a 'Document Class' dropdown set to 'HCRD Documents' and a 'Document Title' filter. The table below the filters is empty, with a red message 'No Documents Found!' displayed. The footer contains page ID, environment, server, and time information.

Claim Reports Available

LPHDs through Facility Settlement and CHAMPS

- To access the following reports, log into CHAMPS using FS LPHD profile and access Facility Settlement
 - LPHD Weekly Claims Summary Report
 - LPHD Weekly Claims Detail Report
 - LPHD Annual Claims Summary Report
 - LPHD Annual Claims Detail Report
- Remittance Advices and other claim data (for claim sure) may be accessed using other CHAMPS profiles which contain billing rights.

The image shows the CHAMPS login interface. At the top is the CHAMPS logo, which consists of a green and grey swoosh followed by the word "CHAMPS" in bold green letters. Below the logo is the text "Community Health Automated Medicaid Processing System". The login form below the logo has three main input fields: a text field containing "COUNTY OF KENT 1194855155" with a dropdown arrow and a red asterisk; a dropdown menu currently showing "FS LPHD" with a red asterisk; and a text field containing "Select Favorite" with a dropdown arrow. To the right of these fields is a "Go" button with a magnifying glass icon. A mouse cursor is visible near the bottom right of the form.

Accessing Claim Files

- In facility settlement, select 'Facility' menu, and 'FS Archived Documents'
- When Archived Documents list page appears, the first selection must be set as 'HCRD Documents'
- Either filter based upon 'Document Title' or use Wild card '%' can be used to pull more than one report type.
 - Example '%claim%'

Claim and Encounter Reports

- If using wild card % to pull all reports then filter for desired files by clicking on blue hyperlink.
- Claim Detail and Summary Reports for FFS Claims
- Encounters Detail and Summary Reports for MCO encounters.

Common Questions

Inquiries on Cost Report Completion

- Total Services: Discussed earlier in PPT.
- How are claims summary and encounter reports reconciled to the Settlement Reconciliation worksheet.
- Interim payments are captured by the system and are not provider entered.
- Reimbursement worksheet: This worksheet is prepopulated from 'Settlement Reconciliation' worksheet, and the numbers for that are drawn directly from claim and encounter summary screens.
