

Good afternoon,

I hope you are doing well and enjoying nice spring weather finally! I am reaching out to share our upcoming [Power Series Workshop](#). I am hoping you can share this application amongst your networks for those who may be interested in participating.

Description: *Power mapping is an important tool that health departments can use to assess the power and influence of stakeholders. It can also help identify areas where the health department can leverage their own resources and assets to increase their power. This 90-minute discussion-based workshop will provide an overview of power mapping and allow participants to learn best practices for leveraging health department resources and assets within the community. The workshop will include interactive activities, didactic presentations, and group discussions.*

Session Details: June 14, 2023, from 1-2:30 pm ET
Participants are expected to attend the full 90-minute session.

Audience: Selection for this free workshop will be limited to public health managers and leaders working in state, local, or tribal health departments in Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin.

To apply, please [complete the brief survey](#) to describe your interest in participating. Applications should be completed by Sun., May 21, 2023 at 11:59 PM ET.

Please let me know if you have any questions!

Thank you,
Ryleigh
