

Michigan's Premier Public Health Conference

Ypsilanti, Michigan
October 16, 2019

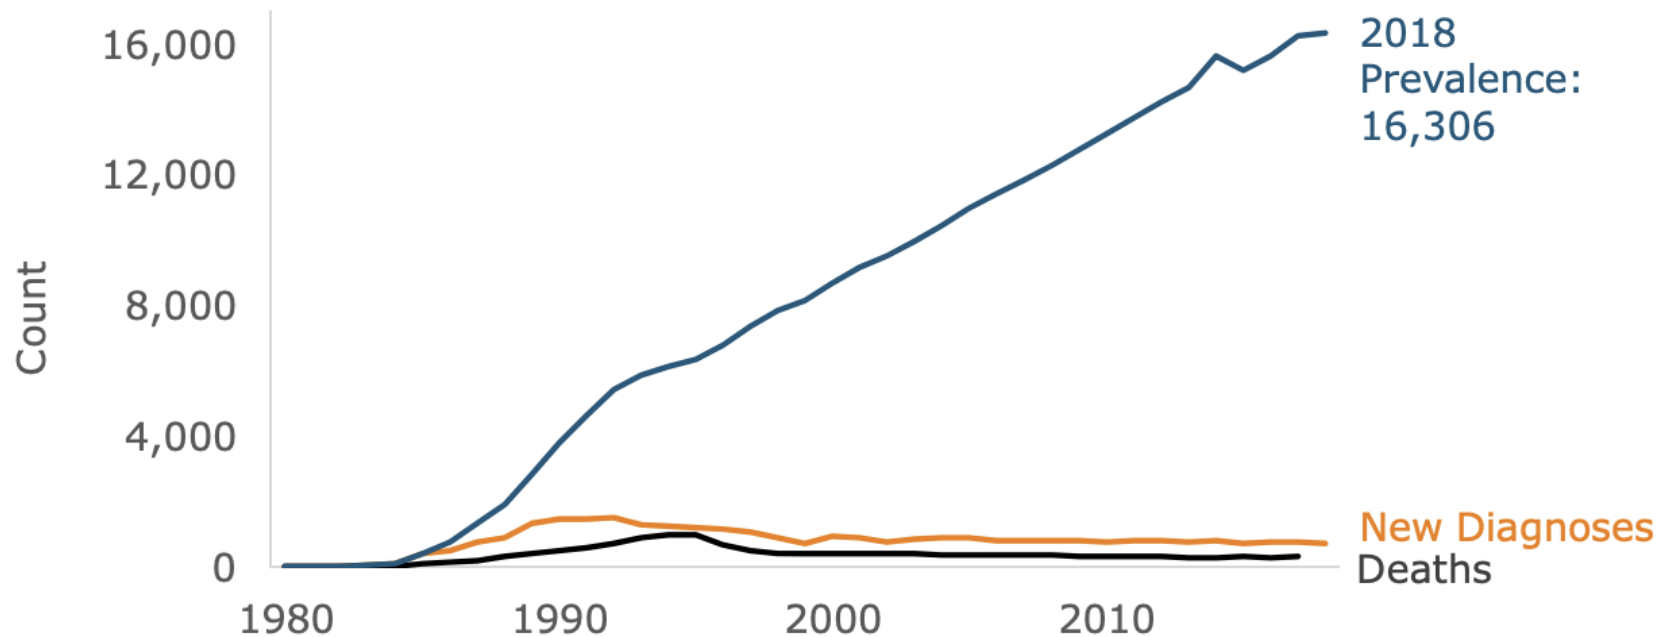

What's working ?

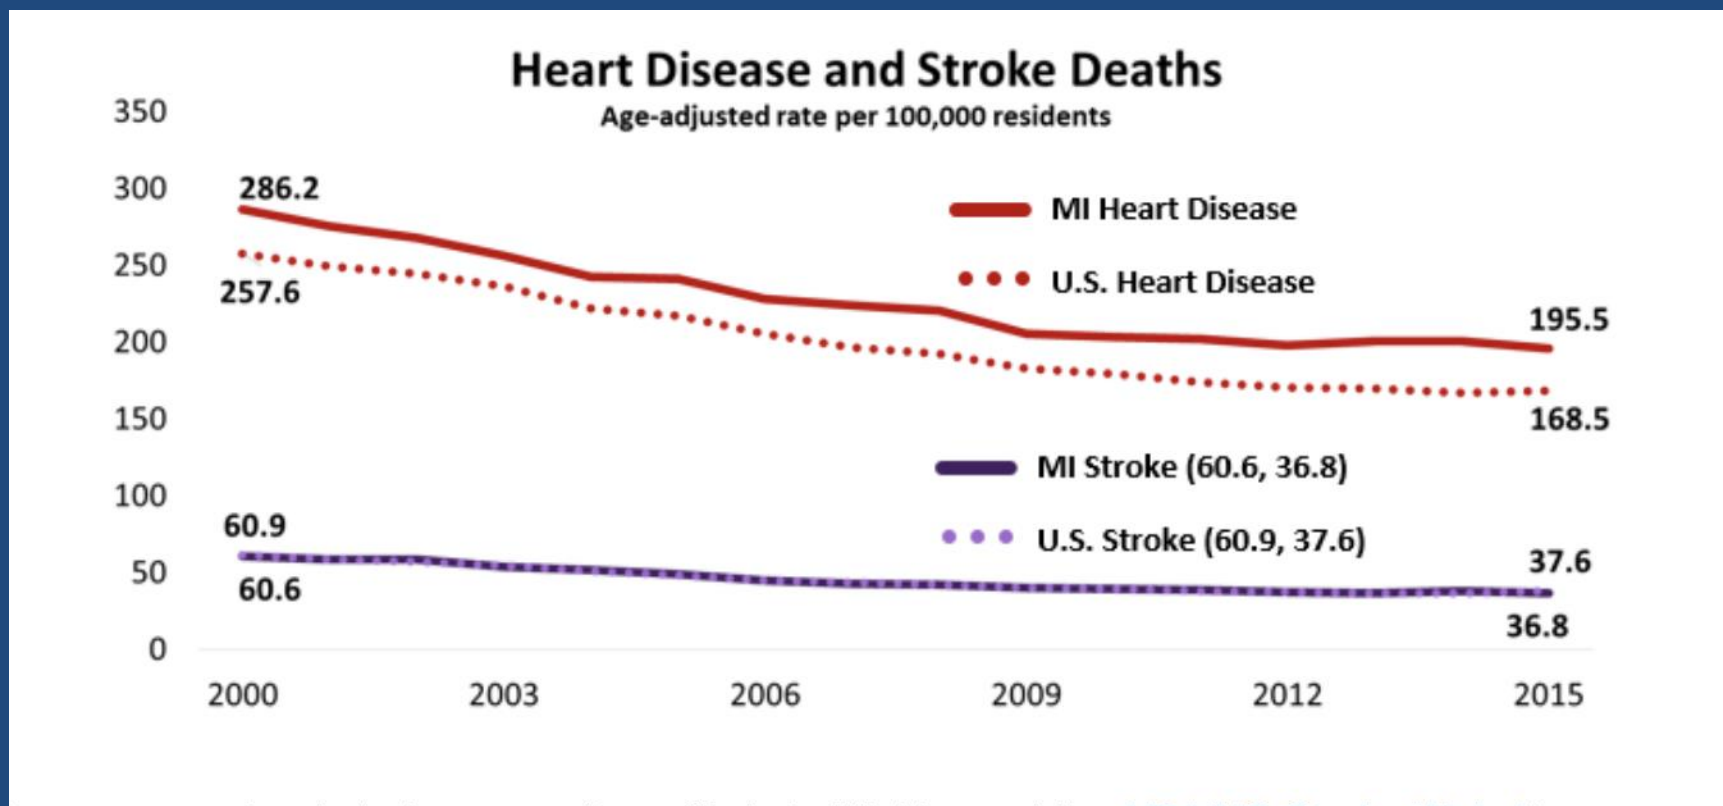

What's already working....?

HIV over time in Michigan

New diagnoses and deaths have leveled off. In general, prevalence continues to rise.

What's already working...

MIDHHS
2018

What's working....?

- **Declining Obesity among 2-4 year olds**
 - WIC enrollees 2010 -2014
 - Rate decreased from 14.4% -13.4%
 - *2/3 of our children or nearly 70% have normal weights*

What's working....?

The trends of rates are charted below; the data is listed in [Rate of Chlamydia, Gonorrhea and Syphilis Cases by Sex 2001-2018](#).

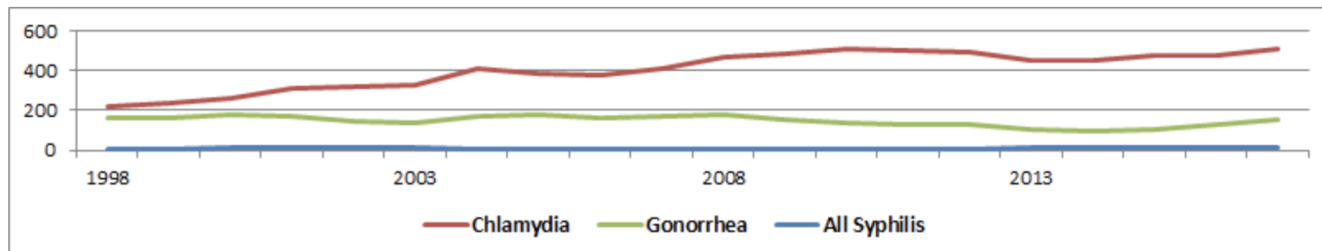

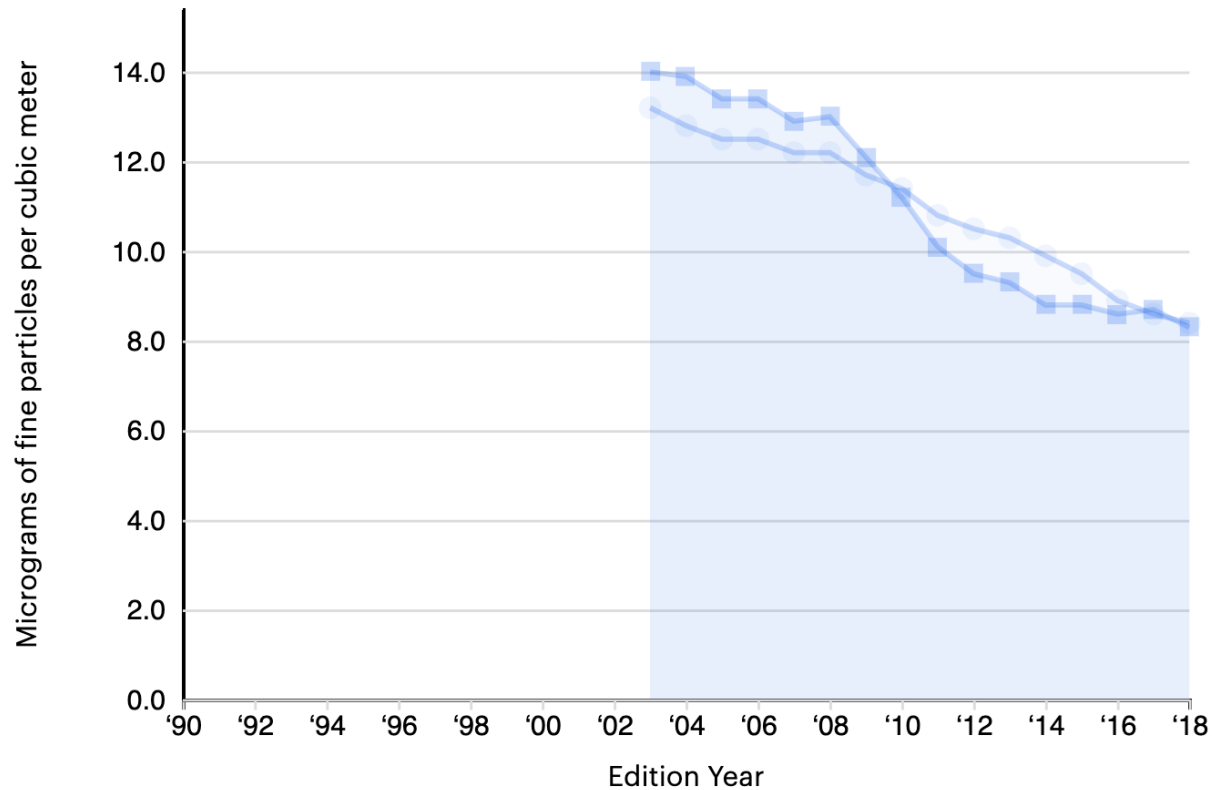

Fig1. - Case Rate Trends of Chlamydia, Gonorrhea & All Syphilis in Michigan, 1998-2018

Air Pollution, Michigan

Trend: Air Pollution, Michigan, United States

America's Health
Ranking 2019

Declining Infant Mortality Rates

1970	1980`	1990	2000	2010	2017
20.3	12.8	10.7	8.2	7.1	6.8

Re-thinking Our Perspective

Local Public Health as an Asset

Public Health Assets and Strengths

- Ten Essential Services
 - Education
 - Convening
 - Assurance
 - Monitoring and Surveillance

Monitoring and Surveillance= Strength

- Flint and Lead
- Lake Erie – algae blooms
- Bay City System Failures
- Kalamazoo – oil spill
