FUTURE REGISTRATIONS!](#)

OBJECTIVES

- Explore the role of ethics in their daily prevention work
- Describe the Prevention Code of Ethics' six key principles and engage in discussions on ethical issues presented in various scenarios
- Apply a four-step decision-making model to assess and address ethical dilemmas

ABOUT THE TRAINERS

Kim Thalison is a CPS with Eaton RESA, managing a grant-funded school wellness and prevention department. She has been working in the field of substance misuse and youth risk behavior prevention for 17 years, beginning her career with the Mid-South Substance Abuse Commission. Kim serves on the Board of Directors for the Michigan Certification Board for Addiction Professionals (MCBAP) and is the co-chair of the MCBAP Prevention Workgroup.

Louise Montag, CPC-R, Executive Director at Prevention Network, has over five years of experience working in substance misuse prevention. Louise was named one of the Top 10 Alumni within 10 Years at Oakland University and Michigan Preventionist of the Year in 2019 by the Michigan Department of Health and Human Service.

ABOUT THE CURRICULUM

The Ethics in Prevention training was developed under the Substance Abuse and Mental Health Services Administration (SAMHSA), Center for the Application of Prevention Technologies task order. Reference#HHSS2832012000241/HHSS2834 2002T. For training use only. Both trainers are certified to facilitate this curriculum.
