

The [Adolescent Health Initiative](#) at the University of Michigan Health is hosting its 2024 Connection Session: "[Clearing the Haze: Navigating Vaping and Marijuana Use Among Youth](#)" on October 3, online and at Eastern Michigan University. Sessions include an SBIRT training, marijuana use on youth and brain development, to a panel discussion on educational disparities among school-aged youth. Please take a moment to review the [agenda and expected results](#) or check out our latest email below.

We would be grateful if you would share this with the adolescent health professionals at MALPH. We welcome them to take advantage of 10% off when they use the special **discount code AHIPARTNER** at checkout. Continuing education credits will be offered. In-person seating is limited, and registration closes on September 18.

We hope to see a MALPH presence there. Please feel free to [sign up](#) for our newsletter to stay in touch with our latest resources and events!
