

2019 Michigan Nursing Summit

Widening the Lens. Broadening Perspectives. Thinking Differently.

October 17-18, 2019 | Dearborn, MI

Overview

The Michigan Center for Nursing's annual Michigan Nursing Summit convenes nurses from all over the state of Michigan. This year's Summit will equip nurses with knowledge to promote understanding of underlying health factors, and the impact that these have on patient interactions and outcomes.

Key Learnings

1. Understanding unconscious biases, cultural congruency, and the socio-historical contexts that impact provider-patient communication and quality of care.
2. Current healthcare trends and issues requiring nursing leadership for individual patients, systems, and vulnerable populations.
3. Techniques for professional resiliency, self-care, and workplace harmony and ways to integrate these techniques into practice.

Where

DoubleTree by Hilton Hotel Detroit - Dearborn
